ABOUT THE COLLEGE

Rishi Dayaram & Seth Hassaram National College and Seth Wassiamull Assomull Science College, Bandra, Mumbai, is one of the oldest institutes of higher education situated in the suburbs of Mumbai. Other than the traditional courses in Sciences, Humanities and Commerce, the college also offers a number of professional courses in the fields of Computer Sciences, Information Technology, Biotechnology, Management Studies, Accounts & Finance, and Mass Media up to UG and PG levels.

Working towards its vision and mission statements, the college lays great emphasis on the all-round development of its students. While academic excellence is encouraged and rewarded, a variety of extracurricular activities conducted by the institution enable students to explore their capabilities and is a step towards the holistic development of the students' personality and confidence. Students of both, Junior and Degree College, participate in academic and other activities of the college every year under the guidance of its caring and supportive staff.

The college strongly believes that one of the most important aspects of higher education is to create an individual who can contribute to national growth through self-learning. Campus-Induced Placement Process and Curriculum-Intense Intercollegiate departmental festivals are some student-intense steps in the direction of self-learning.

The students are also exposed to the world outside its curriculum by conducting Industrial / Institutional Visits, Guest Lectures by eminent personalities, and by introducing skill-based programs. The college has collaborations with a few industries and corporate houses.

Workshops are organized on a regular basis to keep our students and faculties abreast with the latest knowledge and to enhance their employability skills. The progressive management, enthusiastic faculty and eager students strongly believe in the college motto "PLAY THE GAME". They serve as ambassadors of the college and work toward accomplishing the institution's mission and vision statements, thereby reflecting the ideology of our founders.

In its 70-year journey, the College has provided vital educational opportunities, and multiple avenues for employment, producing high-ranking professional leaders in almost all walks of governance, industry and the corporate world.

SynTech-X '23-'24

Background

{SynTech-X}, the Annual Curriculum – Intense Intercollegiate Computer Science Festival of R.D. & S.H. National College is a pool of technical events for all those who are more than just passionate about the ever-evolving computer technology. It provides a platform for students to showcase their talents, technical skills and explore the practical dimensions of education imparted through the curriculum.

Objective

The main objective of this festival is to understand and strengthen the technical concepts taught in class. These are then applied through a number of activities, perfectly blended with entertainment and technology. Another objective of the festival is to promote talent by developing e-skills and providing innovation in emerging areas of technology, as well as exploring the extra-curricular talents of the students. {SynTech-X}, a mixture of traditional ideology and modern technologies, provides an opportunity for passionate minds to inculcate skills of calculated risk, and also learning to think on one's feet.

Events

The festival offers a plethora of events in which the participants can exhibit their skills in brain-storming events like our flagship event *SynTechXathon "Hackathons are where your crazy idea becomes reality"*, SynTechXist (the Computer Science Quiz), Debug Me, as well as artistic events like Meme It Up. Popular events like Logo Design, Syoogle (e-Treasure Hunt), BGMI, and more draw students from all fields to our festival. We have also incorporated Cultural Events like House of Talent to provide a platform for students to exhibit their talent.

Special Features

Perpetuating the tradition, the department shall invite two prominent personalities – one from the academic field and the other from the industry. They will enlighten the participants on the theme: "Binary Beats: Rhythm of Tech Evolution", during the inaugural session.
